

To Vote on By-Law To Build New Schools

At the meeting of the Board of Trustees of the Olds School Division No. 31, held in Didsbury on September 14, a report was made by the secretary on the petitions sent in from the various sub-divisions to have a vote taken on the borrowing of \$300,000 to build new schools at Carstairs and Didsbury.

Over 20 per cent of the sub-divisions have now sent in petitions for a vote, and the Board of Trustees authorized the secretary-treasurer to apply to the Board of Public Utility Commissioners to hold a vote and to set a polling date.

A report was received from the principal of the Didsbury school, Mr. E. T. Wiggins, outlining the overcrowded conditions in the local school, and the Board decided to refuse further applications from pupils wishing to enroll in the elementary and junior high school grades in the Didsbury school.

First Meeting of New Lone Pine Girls' Club

On August 23 a group of girls met at the home of Mrs. Dowell to form a Women's Institute Girls' Club, and the name of the new organization is "The Lone Pine Orioles".

Miss Shirley Spraggs was elected secretary of the new club, and Miss Joy Elliott was elected president. Mrs. A.C. Brander was chosen as leader, and fourteen girls were joined.

On September 16th the first meeting of The Lone Pine Orioles was held at the home of Sandra Brander. The ten-cent draw was won by Joy Elliott, and the contest, "guessing popcorn in a jar," was won by Mary Spraggs. The fruit or vegetable contest was won by Patsy Spraggs.

The meetings will be held every third Saturday in the month, and the next meeting will be held at the home of Joy Elliott on October 21st.

The first objective of the new club was "learning to knit".

FISH AND GAME MEETING FRIDAY, SEPTEMBER 22

The first meeting of the Didsbury Fish and Game Association for the fall season will be held in the Lions' Hall on Friday, September 22, at 8 p.m.

Reports will be given by the various committee chairmen, and other important business will be discussed.

A good attendance is requested.

New Owners Take Over The Club Cafe

Frank Vecchio of Nordreg has purchased the Club Cafe building in Didsbury from George Smith and took over the cafe business on Monday.

The deal for the building was completed by Galloway and Miller of Olds, and Mr. Vecchio was in town last Thursday completing arrangements for remodeling the building.

Yew Chong, who has operated the Club Cafe for the past year and a half, has accepted a position in the Elite Cafe, Calgary, and Henry, who has been attending school in Didsbury, will go to Beiseker to reside with his uncle.

Duck Shooting Season Opens September 23

The open season for ducks and geese in the southern zone of Alberta, including the Didsbury area, starts Saturday morning, September 23rd and local hunters are now getting prepared for the annual event. However, many may be disappointed. This year there are very few ducks around this district, and with many of the early cloudy days, it is not likely that the northern ducks will congregate here in large numbers.

Wherever water is available this year there appears to be plenty of ducks and hunters possibly will have to travel to other parts of the province for their ducks this year. The daily duck bag is 8 per day and a season limit of 40.

BRUCE FREEMAN IS NEW STUDENTS UNION PRESIDENT

The students of the Didsbury High School held their Students' Union reorganization meeting on Friday, September 15. The following officers were elected for the school term:

President, Bruce Freeman, Vice President, Barney Barrett, Secretary-Treasurer, Fay Prevost, Social Committee: Ruth Rundberg, June Klinck, Allen Freeman and Ken Morris.

The room representatives will be elected at a later date.

Exploration Crew To Again Work In District

The Nance Exploration Company has a crew of men stationed at Olds and temporary headquarters have been set up in the Olds Hatchery building. This company expects to have a crew of men in the vicinity of Didsbury and Olds for the next eight months, and it will do seismograph work in the area north-west of town, where an oil structure is believed to exist. This structure is said to run along the foothills from the Jumping Pound area to north and west of Olds, and it is the intention of the Nance Exploration Company to further test the structure for oil possibilities.

Headquarters of the company is at Houston, Texas, and J. B. Macdours is the crew manager at Olds. Oil development is beginning to have more significance to the people of this area, due to the fact that an oil company has started negotiations for the acquiring of a lease on the mineral rights on the W. E. Fiedler farm south-east of Didsbury. However, actual drilling will be the only means of properly testing the oil possibilities of this district.

Pilgrimage Play At The Lutheran Church

The Pilgrimage Play, "The Life of Jesus", will be shown at Redeemer Lutheran Church on Sunday, September 24, at 8 p.m. This is a 10 mm. colored sound movie. After playing to more than one million people as an outdoor stage production, The Pilgrimage Play is now reaching a wider audience via color film. Starring as Jesus is Nelson Leigh, who has played the role for nine years in the Hollywood Hills of Calhoun, Pa.

States the "Hollywood Reporter": "The Pilgrimage Play comes to the screen in a fine production that is impressive for the reverence and complete sincerity with which the life of Jesus is handled."

Burton Holmes, world traveller and lecturer, compares the movie with the Passion Play of Oberammergau, and says: "There is a marvellous spectacle. Yours—The Pilgrimage Play—is even more marvellous. You give in an evening the essence of their day-long program. Your stage pictures are most beautiful, your dramatic effects more telling."

The Pilgrimage Play—"The Life of Jesus"—has been produced by the Lutheran Church - Missouri Synod.

Trpr. Jack Mooney of the Lord Strathcona Horse Regt., Wainwright, spent the weekend in town with his parents, Mr. and Mrs. Ivan Mooney.

New Addition to Palace of Nations

Enroute to Moscow during his recent "peace mission" through Europe, U.N. Secretary-General Trygve Lie lays the cornerstone for a new wing of the Palace of Nations in Geneva, Switzerland. The new structure will accommodate the headquarters of the World Health Organization of the United Nations (WHO). With Mr. Lie are Max Petitpierre, President of Switzerland (left), Princess Rajkumari Amrit Kaur, Health Minister of India and President of the World Health Assembly, and other Swiss and WHO officials.

To Remodel Town Barn For Fire Trucks

At the meeting of the Council of the Town of Didsbury, held on Monday evening, Sept. 18, a report was received from the Provincial Laboratory of Public Health on the water at the new well on the butte and the report showed no evidence of unfavorable bacterial contamination in the sample. The water is soft, with hardness only one grain per gallon and containing 108 grains of carbonate of soda. The date of the annual tax sale was set for December 11.

Council decided to fix up the town barn to house the two fire trucks, and the building will be insulated and a new chimney added.

The Municipal Convention will be held at Medicine Hat on October 5 and 6, and delegates from the Town Council will attend the gathering.

Notice has been received that the pump for the well has been shipped from the factory and it should arrive before the end of the month. There is still some work to be done at the disposal plant, but this part of the system is now nearing completion.

WORKING ON TENNIS COURTS

Last week the school students turned out to work on the tennis courts and with the aid of municipal equipment considerable improvements were made. However, there is still plenty of work to do on the courts to put them in good shape and this afternoon (Wednesday) another "bee" will be held, starting at 1:30 p.m. Tennis enthusiasts are asked to bring their rackets and help to complete the work on the courts.

DIDSBURY HOSPITAL BIRTHS

Born at the Didsbury hospital to Mr. and Mrs. Jack Camps of Cremona on Thursday, Sept. 14, a girl. To Mr. and Mrs. Leslie Quance of Didsbury on Monday, Sept. 18, a boy.

I.O.D.E. TO SPONSOR TAG DAY FOR BLIND ON SEPTEMBER 23

The tag day for the Canadian Institute for the Blind, which is being sponsored in Didsbury this year by Moose Chapter I.O.D.E., will be held on Saturday, September 23, and all financial assistance will be appreciated.

This is a worthy cause and it is hoped that the people of town and district will give as generously as possible on this occasion.

F. D. Shaw Suggests Decentralized Industry

Speaking in parliament last week, F. D. Shaw, S.C. member of parliament for Red Deer, told parliament that he believes that the government should give very great thought without delay to the decentralization of industry, both as a measure of safety and as a means of distributing the benefits of industry throughout the nation.

There is ample oil in the west to develop industry throughout that part of the country.

Mr. Shaw also urged the government in view of that he called widespread profiteering, to institute an immediate inquiry into price spreads. In his opinion the government had a far better opportunity to do this now than it might have in a few months time.

Mr. and Mrs. D.W. Shannon and family spent the weekend with Mr. and Mrs. J. E. Cunningham. Don returned to Halkirk, and Mrs. Shannon and children will spend the week here.

21 Members Attend Westcott W.I. Meeting

The September meeting of the Westcott W.I. was held at the Westcott church with Mrs. Baudistel Sr. as hostess, and there was an attendance of 21 members and three visitors.

The meeting opened in the usual manner with a Canada, followed by the Creed, Roll call was "a fact about Denmark."

A short business meeting was held, followed by a paper on Canadian Industries by Mrs. L. Vogelz, and she chose "Nyion" for her subject.

Mrs. Cliff Eckstrand gave a very full and interesting report on the Farm Women's Week, which was held in Olds.

For the Famous Canadian topic Mrs. McFarlane chose Barbara Ann Scott, known as "Queen of the Ice Lanes."

The topic "A Study of Denmark," by Mrs. J. Robertson, was held over for the next meeting.

As the bit of entertainment by Mrs. R. Shantz, each member was given a tongue-twister.

The next meeting of the Westcott W.I. will also be held at the church, at 2 p.m. on October 6th, with Mrs. Henry Wilschusen acting as hostess.

The meeting closed with God Save the King and a lovely lunch was served.

Red Shield Appeal Being Sponsored By Lions Club

This year the Didsbury Lions Club is again sponsoring the Red Shield Appeal of the Salvation Army in Didsbury and the campaign for funds extends from Sept. 20 to Sept. 30.

There will be a canvass of the business places in town. However, it is not possible at this time to make the rounds of the district and country residents are asked to send their contributions to C. E. Hoher. Donations can also be made to A. V. Soley, The Didsbury Pioneer, or Payne-Freeman Co. Ltd.

William Booth, founder of The Salvation Army in 1865, wrote in October 1890 of his plan to establish "Harbours of Refuge for all and any who have been shipwrecked in life, character or circumstances. The Harbours," he declared, "will gather up the poor, destitute creatures, supply their immediate pressing necessities, furnish temporary employment, inspire them with hope for the future, and commence at once a course of regeneration by moral

and religious influences. From these institutions, numbers would, after a short time, be floated off to permanent employment, or sent home to friends happy to receive them on hearing of their reformation."

Today, 60 years later, The Salvation Army in Canada alone, is operating more than 100 social service centres designed to meet human need, and combat human error and despair. Their work has met with spectacular success. Files are crowded with "success" stories of unwanted children who have "made good"; unemployed and unemployable men who have been kept in safe and sane pursuits; unmarried mothers who have been guided to the happiness they blundered in seeking; dependent or friendless aged who have found sanctuary and calm through life's end-years; prisoners and ex-prisoners to whom has been communicated the secret of success living.

The Salvation Army's essential services to the Canadian people are worthy of recognition at this time when the Red Shield Appeal asks for generous support. There is no doubt that The Salvation Army is doing a vital work. With our practical support they will continue to do it, and do it as they have always done—with heart and hand and man.

WEST NOTES

The Elkton Willing Workers met at the home of Mrs. E. Campbell last Wednesday with 14 members present. A quilt was tied for the Red Cross. Owing to the absence of the secretary the business part of the meeting was short, and a pleasant time was spent over tea cups, with Mrs. Urquhart reading the fortunes.

The next Willing Workers meeting will be held at the home of Mrs. Arnold Hogg on Wednesday, October 11, when it is hoped to tie another quilt.

Mrs. M. Campbell has her brother and his wife, Mr. and Mrs. Urquhart of Moose Jaw, visiting here for a few weeks.

Mr. Bryce Thompson is at present at the home of his parents, Mr. and Mrs. O. Thompson. He has completed two years as apprentice at a Banff drug store and now intends to enter the University of Alberta.

The cornfield is looking particularly beautiful just now, with leaves turning all colors, and many cars travelled west on Sunday to enjoy the Fall scenes which only the bush country can produce.

Mr. and Mrs. A. L. Hogg were supper guests on Sunday with Mr. and Mrs. O. Thompson.

Mr. and Mrs. Tony Spooner and Mr. M. Stringer visited with Mr. and Mrs. C. Crosby on Sunday.

Mrs. Patterson of Harmattan is visiting with Mrs. A. McInnes for a few days.

DUTCH STRAWBERRIES FOR CALIFORNIA

When 60 tons—of frozen strawberries were recently shipped from Rotterdam to California, some thing new was started in international trade, according to a report from the Netherlands.

By adopting a short-day treatment, whereby the plants are covered by dark glass each afternoon and uncovered at 8 the following morning, some Dutch strawberries are reported to be yielding two crops a year. Plants which bore a good crop earlier again in October and November.

Redeemer Ladies' Aid To Gather Clothing

The Ladies' Aid of Redeemer Lutheran Church met on Thursday, September 14 for their regular meeting. Pastor Fox gave a brief resume of the Book of Esther, indicating how God chose a woman as His tool to help His people. During the business session the Aid agreed to support a plea from the Canadian Lutheran World Relief for used clothing for Europe. Clothing should be brought to the church, from where it will be shipped to a collecting station in Winnipeg on October 15.

The annual fall sale of the Aid was also briefly discussed.

Mrs. K. Fox was elected as a member of the sick committee for the ensuing month.

The meeting was closed with lunch.

Crystal Dairy Wins Three Butter Prizes At The C. N. Exhibition

Crystal Dairy Ltd. has again demonstrated that it can make first class butter, and at the Canadian National Exhibition at Toronto the Didsbury creamery won three prizes for its product.

First prize was awarded to the local creamery for 10 pound prints; second prize for 14 pound prints, June milk, and second prize for 14 pound prints, August make.

While this is a fine showing for the Crystal Dairy at Didsbury, it also reflects on the excellent dairy industry of the district, and the butter maker, Gordon Sherrick, and the local manager, J. W. Wordie, are to be congratulated in their efforts to turn out first class products at the Didsbury plant.

Larger Spread In Grain Prices This Year

The Alberta Wheat Pool points out that the price spreads between the grades as recently announced by the Wheat Board are considerably wider than last year. For instance the price spread between 1 Northern and No. 6 wheat was only 2½¢ last crop year while this crop year it is 3½¢.

The United Wheat Board price for the crop year 1950-51 at the Didsbury elevators will be:

1 Northern	\$1.23½
2 Northern	\$1.20½
3 Northern	\$1.13½
4 Northern	\$1.03½
Number 6	.89½
Feeds	.83½

GRAIN PRICE LIST

Following is the initial price for oats as paid at the local elevators by the Wheat Board for the 1950-51 season:

No. 2 C.W.	.52½
No. 3 C.W.	.49½
No. 1 Feed	.47½
No. 2 Feed	.40½
No. 3 Feed	.35½

BARLEY PRICE LIST

The following initial prices are being paid by the Wheat Board at the local elevators for barley:

No. 2 C.W.	.77½
No. 3 C.W.	.75½
No. 1 C.W.	.70½
No. 1 Feed	.69½
No. 2 Feed	.62½
No. 3 Feed	.57½

300 MILES TO GALLON WITH NEW BRITISH WONDER ENGINE

A speed of over twenty miles an hour with a gasoline consumption of three hundred miles to the gallon can now be obtained by a tiny half-horse power engine attached to the wheel of a bicycle.

Known as the "Cyclemaster," the engine is incorporated in a mor-

tised wheel which can be fitted in twenty minutes to any average size bicycle. The two-stroke engine, the wheel and the two and a half pint gasoline tank which fits neatly round the hub together weigh only twenty pounds more than the average cycle wheel.

FLOUR EXTRACTION RATE CHANGED IN UNITED KINGDOM

An additional 275 thousand tons of animal feedstuffs is expected to be made available in the United Kingdom as a result of the recent decision to reduce the extraction rate of flour for the national loaf from 85 to 80 per cent. It is estimated that this reduction will give 65 million dozen eggs or produce about 45 thousand tons of pork products.

The new national loaf will be made up of home-milled national flour with a rate of 81 per cent and a proportion of imported flour with a lower rate.

Alberta Most Hailed Area In The World

Hail storms occur in many parts of the world, and the loss in dollars and cents each year to agriculture each year is quite a substantial sum. The severe hail storm like the tornado, is always small, but it represents such a concentration of fury, and the destruction it causes is so complete, that it is always dreaded.

Alberta is a province that is particularly susceptible to hail damage. Meteorologists of repute maintain that more hail storms occur here than in any other province or state throughout the world. It is difficult to explain why this should be.

Hail is formed in the turbulent region at the front of a thunder storm, according to Dr. W.J. Humphreys of the United States Weather Bureau. The air currents in the vein of such a storm are always in violent commotion upward and downward between relatively cold and warm regions of the atmosphere. As the moisture is carried upward it is congealed into frozen particles known as hail. Hail may be swept upward in front of a storm several times before it finally drops to the earth. Each time it rises to the height it receives a fresh coating of ice. This is why large hail stones frequently show several alternate layers.

Some terrible hail storms have occurred at various times in the earth's history. At Dallas, Texas, in 1926 tons of ice fell on streets and buildings during 15 minutes, and in the business centre the stones attained the size of baseballs. The losses in the city and its vicinity were established at \$2 million.

An unusually severe hail storm swept a path five miles wide across Kansas on June 4, 1927. Fields were left as bare as highway. Trees were stripped of branches and leaves, and horses, cattle, hogs, sheep rabbits, chickens and wild birds were killed. Hail stones piled into drifts eight to fifteen feet deep and many of these drifts remained for three days.

One hail storm caused such a widespread distress that it helped bring about a great social upheaval. Beginning in the centre of France, July 13, 1788, this storm crossed Belgium and finally died out in Holland. No less than 1,309 communes in France suffered, and the total losses were established at \$5 million, an immense sum at that period. This disaster undoubtedly hastened the coming of the revolution.

At Potter, Nebraska, on July 6, 1928, hail stones as large as grapefruit fell. One was found to be 17 inches in circumference and to weigh 1 1/2 pounds.

At a village in Rumania on May 1, 1928, six children were killed and ten adults were badly injured by hail during the celebration of the May Day Festival. In 1929 on July 4th, two men and one woman were killed and several were injured by hail in the suburbs of Nuremberg, Bavaria. These events were quite exceptional, however, for a number of human beings killed or seriously injured by hail is insignificant.

KIDS HAVE PICNIC TODAY COMPARED WITH OPPORTUNITIES OF THEIR PARENTS

John Doe was born on a farm in the year 1900. The farm was 15 miles from town and the only means of transportation was by horseback or team over roads that were often nothing but a series of mud holes in summer and snow drifts in winter. John's education was a source of continual worry to his parents and his mother, who herself had been a teacher, did all she could to help him along the road of learning, even before he had started to school.

At the age of seven it was decided that John should start to school. One had been built in the district two years before. Over the hills, which could only be travelled on foot or on horseback, it was a mile and a half from John's home. By now it was five miles. It served an area approximately 12 square miles and many of the children had to come as much as six miles each day. The school itself was a one-roomed affair situated on a small creek which was the source of water supply. Nobody seemed to worry about the fact that the cattle on the farm a quarter of a mile up the creek used to wallow in it and at times the water was so dirty that even the horses would not drink it. The school was designed to seat about 20 children and had a cloak room in which the coats were hung and the lunches were left to freeze in the winter and spoil in the summer. The classroom was heated by a large stove at the back of the room. Owing to the poor roads and the distances some of them had to come it was operated as a summer school. The children had two weeks' holiday in July and the school was closed January and February.

And so on a hot summer day in mid-July, John's mother packed his lunch pail and he trudged over the hills to school. There were about 25 children there in all grades from beginners to grade 8. The teacher was a young girl just out of normal school. She boarded on the farm just up the creek and, like the children, walked to school every day. During the summer months the heat was intense and the fact that John's cousin, who lived in town, was holidaying, then, did not improve the situation any. During cold weather the first one to arrive at school, whether it were the teacher or student, built the fire, and the next hour was spent standing around it thawing out themselves and their ink-bottles. And so John spent his public school days.

Finally the time came when he had passed his grade 8 departmental; now he must go to high school. The nearest one was in town. It consisted of two rooms, grade 9 and 10 in one and grade 11 and 12 in the other. It was housed in temporary quarters above a store building in the middle of the town with no playground facilities and no place for the pupils to go during the noon hour and recesses, except out on the streets and to the stores and restaurants, while a few of the older students frequented the pool hall. John rented a room, which was heated by a stove, made his own meals most of the time, roamed the streets with the rest of the boys and looked forward to the next long holiday when he would be able to go home. So he spent his high school days.

Twenty years later John's son went to the same country school. It was exactly the same except that now the family had a car and he could be taken to school in it, providing the roads were not too bad

and John could spare the time. In view of the improved road and travelling conditions the school was no longer operated as a summer school. As a result the son was driven to school in the car part of the time, walked part of the time and missed a considerable part of the time in the winter months when weather was bad and the roads drifted. When he had finished public school he, too, went to high school in town. It was still located in the temporary quarters. It had been in when his father went to school. He lived under practically the same conditions as his father had done. There was only one improvement—he got home more often on holidays and week ends. When, after finishing high school, he decided that he would go on to agriculture college, he found he had to make up several subjects that the limited facilities of the high school he had attended had not been able to offer him.

Now John's grandson is ready to start school but things are much

different. The little old school over the hill is closed. Instead he steps into a heated van that takes him to town. When he gets out of the van he steps into a nice warm school and there is a teacher for every grade with the training and time to give him all the individual help he requires. The children no longer roam the streets. They are kept fully occupied by the auditorium, gymnasium and playground facilities provided. There is a wide range of subjects for study, from which he can choose those most suited to his needs. If he wishes to go beyond high school he can arrange his courses accordingly and not, as his father did, have to make up several subjects because they are not offered. He can take any useful subjects such as book keeping and shop. Such courses his father never had the chance to study although the knowledge gained would be useful to him every day in operating his farm.

In summing up the whole thing John says: "The kids have a picnic today compared with what they had when I was young. And they learn a lot of useful things too. Why, our neighbour boy can even fix the tractor when it won't

start. He says he learned it in shop. Of course, our taxes are higher now than they used to be but kids are getting a lot more for the money spent. Besides, while our taxes used to be lower, it cost our parents a lot of money to educate us when you consider fees and board paid in town while we went to high school. Personally, I would not like to see the kids of today go through what I did to get my education."

Many of you who read this will recognize the conditions described therein as those you had to put up with. If you do not think these conditions are good enough for your children today get out and vote for the Olds School Division by-law authorizing the borrowing of \$320,000 for the purpose of improving them. It is true that it will increase your taxes, but is it not worth it?—Contributed

A dear old lady was taking her first taxi ride. As they approached a turn to the right the driver put out his warning hand. The dear woman saw it and leaned forward saying: "Young man, keep both your hands on that wheel I'll tell you when it rains."

CHEVROLET

is *FIRST* in

VALUE

POPULARITY
SALES

A Big, impressive, powerful car—with generous room for six... Canadian engineered for Canadian conditions and for economical operation—all this at a price that's far, far lower than the cost of any comparable car!

With value like Chevrolet's it's no wonder that in a recent impartial survey among thousands of motorists from coast to coast, Chevrolet proved to be in greater popular demand than any other car.

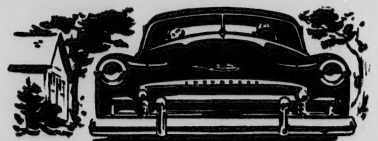

More Chevrolets are sold in Canada than any other make! In the past five years, Canadians have bought over 50,000 more Chevrolets than any other make—and the lead is growing every day, in all parts of the country!

LOW FIRST COST · REPUTATION · ECONOMY

LOW FIRST COST—Compare price tags first! Then examine the car—inside, outside, under the hood. Chevrolet is priced among the lowest of all—far below any comparable car! And it's a full-sized six-passenger car—safe, impressive.

REPUTATION—Thousands of motorists recently named *Reputation* as the leading reason for voting Chevrolet their favorite motor car, in a survey conducted from coast to coast, among owners of all makes.

ECONOMY—Chevrolet's highly-improved more powerful engine features a new carburetor that not only steps up performance but means even greater economy of operation. And owners agree Chevrolet costs less for maintenance service than other cars.

STYLING · PERFORMANCE · DEPENDABILITY

STYLING—Inside and out, Chevrolet's a style star! Above all, the new Chevrolet's lines have a quality look—the look of a big, impressive motor car... and that's just what this Chevrolet is!

PERFORMANCE—This year, as every year, Chevrolet clearly out-performs its rivals... on super-highways, on back concessions, in stop-start traffic. And Chevrolet's performance stays brilliant!

DEPENDABILITY—Complete dependability—that's the Chevrolet by word! Superb engineering for Canadian conditions, plus skilled service at modest cost by authorized dealers everywhere keep maintenance costs down, dependability up!

SAFETY · ROOMINESS · TRADE-IN VALUE

SAFETY—Chevrolet gives you greater safety! Powerful, heavy steel box-girder frame... new more rigid bodies by Fisher... big wraparound bumpers... exclusive Certi-Safe Hydraulic Brakes... and ample power to pull you out of danger in a tight spot!

ROOMINESS—Chevrolet's a six passenger car, for sure! There's no more squeezing in, but room aplenty for six grownups to ride in comfort on extended trips. And Chevrolet's convenient trunk has amazing capacity—it's bigger than ever before.

TRADE-IN VALUE—Because Chevrolet is first in the low-price field with all the qualities that Canadians want most... because it's renowned for long life, Chevrolet is the favorite among used-car buyers as well as new. That means a higher trade-in value for you!

MAKE HUNTING A SAFER SPORT

The fall hunting season in this part of Alberta will commence on September 23, and unless every precaution is taken by the hunters the usual number of accidents can be expected before the season closes.

At least 95 per cent of all hunting accidents each fall can be avoided if every hunter acquaints himself with the fundamentals of safe gun handling and constantly practices them. These fundamentals are simple and serve a dual purpose: they help keep hunting a safe sport and make for better marksmanship.

There is no excuse for carelessness in gun handling, whether the weapon is loaded or not. The cardinal rule of gun safety is "treat every gun with the respect due a loaded gun." Always remember—never point a gun at anything you do not want to shoot. Never leave your gun unattended unless you unload first. Never climb a tree or a fence with a loaded gun.

Carry only empty guns—taken down or with the action open—into your automobile, camp or home. Whenever you pick up a gun, indoors or outdoors, always first point the muzzle in a safe direction and examine the piece carefully to make sure whether or not it is loaded.

Pointing a loaded gun towards a companion is the unpardonable sin of shooting ethics. Do it just once and you have lost the respect and comradeship of your friend, and branded yourself a thoughtless novice or a careless, dangerous shooter with whom it is unsafe to go afield.

It is a compliment to be invited to go hunting with an experienced gunner. It means he believes you will observe all safety rules and practice good sportsmanship. Don't let him down by taking chances and you'll help make hunting a safer sport. It's just as easy to be careful as careless.

SELFISHNESS IS NOT GOOD JUDGEMENT

Owing to the number of petitions that have been received from the various divisions in the Olds School Division No. 31, a vote is required to get the approval of the ratepayers on the expenditure of \$330,000,000 to build the new schools at Carstairs and Didsbury, and the date of the vote will be announced shortly.

Much of the opposition to the building of the new schools comes from the Cremona and Sundre areas, where the Olds School Division has already spent large sums to improve the educational facilities at these points. Now that their needs are satisfied, and the ratepayers over the whole Division are paying for the increased benefits, some of the residents are reluctant to see the educational benefits extended to other parts of the district. This is, of course, pure selfishness and while the educational needs of these areas are probably adequate for the time being, such is not the case in Carstairs and Didsbury.

When the vote is taken on the school by-law in the near future it is hoped that selfishness will not be a factor in deciding how a ratepayer will vote.

CHEESE OUTPUT INCREASED IN THE UNITED KINGDOM

Cheese production in the United Kingdom is being encouraged on the farms and during the past six months all cheese factories have

been working to capacity and it is reported that for the year ending June 30, 1950, 20 per cent of the cheese on the ration was home produced, compared to 18.5 per cent in 1949.

To Complete Canada's Tree Count In 1953

Within three years Canada will be closer than she has even been to a complete census of her forest wealth as the result of full-scale aerial and ground surveys now underway.

Nova Scotia, Ontario, Saskatchewan and Alberta have set 1953 as the year in which they expect stock-taking of their timber resources to be complete. All have indicated that new forest polities will be implemented in line with findings. Other provinces either are revising existing inventories or, as in the case of Quebec depending on future budget appropriations to complete work started many years ago.

All provinces, the Federal Forestry Branch and a number of forest industries are securing rate of growth. In Saskatchewan, for example, trees on all inventory sample plots are being bored to determine current growth, and five years ago in Newfoundland a system of growth increment studies was started.

Forest resource stock-taking is designed to show what timber species there are, the location, and where they are being depleted. Accurate maps showing rivers and lakes and other topography also can be useful in administration of wildlife, forest protection and stream control.

NEWFOUNDLAND WOODS RECORD

Through new British orders for pulp and rough pulpwood obtained by Bowater's Pulp and Paper Mills Ltd. (world's largest), Newfoundland will have its record woods payroll in the coming 1950-51 season. American newspaper orders are also heavy and Bowater's alone will cut between 550,000 and 558,000 cords of pulpwood.

WE NEED MORE CUSTOMERS

Canada's foreign trade set new postwar records for the first half of the year but a closer view of exports and imports is not so reassuring.

In the main we have made up our losses in shipments to Great Britain by subsequent expansion in our exports to the United States. That means only a change in our customers, not the highly desirable diversification which we should have for permanence and stability.

Before we can sit back with any assurance that our foreign trade is depression proof, we must secure new and larger outlets for our foods, metals, timber, newsprint, fish, and manufactured products and preferably in those countries with which we are now doing little or no business at all.

Continental Grain Production Figures

The U.S. department of agriculture estimates that total grain production in that country this year will reach 194,200,000 tons. This compares with 166,500,000 tons in 1949.

It also places the figure of Canadian grain production in 1950 at 23,000,000 tons, compared with 32,100,000 tons in 1949.

The comparison is to show the different rates of production in the first year of World War 2 and this year—when World War 3 is liable to break out any time.—Wheat Pool Budget

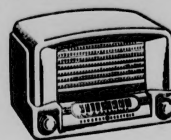

CANADIAN CANNED FOODS

The gross value of canned foods produced in Canada in 1948 rose to an all-time record total of more than 210 million dollars, an increase of 10 per cent over the preceding year's value of 219 million, and more than three and one-half times the pre-war 1938 figure of approximately 64 million dollars.

Packed with Value and constantly proving it!

Ask a Plymouth owner about Plymouth VALUE! Enthusiastically he'll tell you about the many Plymouth features that are giving him more for his money—like Safety-Rim Wheels for extra blow-out protection—brakes that have a reputation for safety—easy, ignition-key starting that gets you under way in seconds—an Automatic Electric Choke that saves fuel and takes the "guesswork" out of choking—and many other Chrysler-engineered features. He'll tell you how Plymouth styling combines beauty with utility—gives real comfort with plenty of head and legroom. Then, you too will agree that Plymouth is packed with VALUE... and can certainly prove it.

1950
PLYMOUTH

PLYMOUTH LIKES TO BE COMPARED! SEE IT NOW

DRIVE IT... COMPARE IT!

AND PROVE TO YOURSELF THAT THE ROOMY, SMOOTH-RIDING PLYMOUTH IS STILL THE GREATEST VALUE OF ALL

Think This Over!

Competition now is between towns rather than individuals, with an automobile at every home and good roads in every direction. The man on the farm does not say to his family as they get ready for their regular trade trip: "Let's go to the Brown store, or the Green store, or the Blue store." He says: "Let's go to Square Town or Whoop City, or Welcome Centre."

And whether they go to one or the other of these towns will depend very largely upon the impression the family has received through the local newspaper. If the newspaper from one of these attractive towns comes to them every week filled with attractive advertisements in every line of merchandise, creating the impression that something is always going on in that town, there is where the family is going on its shopping expedition.

Agricultural
SERVICE
BOARD
NOTES

W.K. Snyder,
Field Supervisor

Cracked grain can be avoided if cylinder and concaves are properly adjusted. At one time the best mechanic in the country was the separator man on the threshing outfit. Today there seems much less thought given to the quality of the work, and too frequently speed is the primary interest. The operating manual of each combine and thresher sets out the adjustments that can be made to prevent this loss. A little time spent prior to field work may save enough to pay for the entire threshing operation.

Many farmers are asking "What about fall seeding of forage crops?" The Department of Agriculture says, if it's grass to be seeded, right now is the time to do it. Any time between August 20 and September 20 is satisfactory, providing there is enough moisture in the soil to get the crop away to a good start before freeze up.

If it's a legume or a grass-legume mixture DON'T seed it now or the legume will winter kill. Wait until late this fall when all possibility of germination is passed, then seed it. With this method the seed is in the ground and ready to take advantage of winter and spring moisture.

A box opener and measuring spout are combined in a new gadget for soap boxes. Plastic opener presses on box, opening top and pouring soap, then measures enough soap for a dishpan of suds every tip. It is said to save up to 30% on soap does away with prying open box and spilling soap.

NOW IS THE TIME
To arrange for your trip to the Old Country.

TAKE ADVANTAGE
of the special excursion fares by plane to Europe, available on and after Sept. 1st, good for return anytime between Dec. 1st—June 30, 1951. Remarkable savings. Reduced fares to all cities in Europe, including Germany. You may fly via Montreal or New York.

ORDER YOUR SPACE NOW
We are authorized agents for Trans-Canada Airlines, Canadian Pacific Air, American, British Overseas Airways, K.L.M., Dutch, French, Scandinavian Airline System and others.

We sell and arrange for plane to any city in Canada, U.S., Africa, Europe, Australia, etc.

REMEMBER
trips by Boat or Air can be arranged through mail or personal call.

WE ASSIST YOU
with passport, visa, baggage, Hotel reservation, insurance, etc. No extra charge for our services, you pay regular fares only.

POTATO PRODUCTION PRACTICE

Potatoes in some instances are replacing summerfallow in preparation for sugar beet crop, according to officials in the Economics Division of the Department of Agriculture, Ottawa, who are making a study of potato production practices in the irrigated areas of southern Alberta. In some cases it was found that potatoes followed summerfallow or a legume crop ploughed down.

THEIR MAJESTIES TO VISIT
AUSTRALIA AND NEW ZEALAND

Their Majesties the King and Queen will visit Australia and New Zealand in 1952, the tour probably extending from January to July. Details of the Royal visit have yet to be worked out but planning will begin about the middle of next year.

CANADIAN ANIMALS FOR
EDINBURGH ZOO

Five timber wolf pups captured in Banff National Park, Alberta, and 21 chipmunks and eight raccoons caught in Georgian Bay National Park, Ont., have been sent by the Federal Department of Resources and Development to the Royal Zoological Society of Scotland at Edinburgh Zoo. Canadian wild-life stocks at Edinburgh have fallen in recent years and an effort is being made to augment them.

COW HAS PEEP HOLE

In their study of the function of the rumen in bovine nutrition, scientists of the Wisconsin agriculture experimental station have equipped a Holstein cow with a sapped plastic tube through which samples of the animal's digestive material may be obtained for experiments.

C.I.L. Agriculture News reports that a short piece of transparent plastic is used, with the tube held in place by flanges both inside and outside the cow's body. The cap of the same transparent plastic serves as a viewing window.

Notes From The D.A.

The value of registered or certified seed cannot be overestimated. This is true of all seeds, but probably more of forage seed than cereals. To have seed registered or certified it must have been field inspected by an official of the Dominion Dept. of Agriculture, and of course it must be from registered or certified seed. It is the field inspection that determines whether seed is pure. It is difficult, perhaps impossible, to identify the different varieties in threshing grain.

I was recently in a field of sweet clover where there was at plant of Nigh Flowering Catch Fly every five or six feet. This is an annual seed but a prolific seed producer and may be difficult to eradicate. It is not possible to clean out the seed.

Had registered seed been used, there should have been none of the weed seeds in it.

Sweet clover is being used largely as a soil improvement crop. Some plow it down when about two feet tall. In this case in addition to the nitrogen added the top growth adds humus as it decays and improves the physical condition of the soil.

Seed is high priced now and some are going to raise a crop of seed. Even if this is done, the sweet clover will add much nitrogen to the soil. However, this method does deplete the moisture and would be satisfactory only where soil moisture is in good supply.

DAIRY HEIFERS

Dairy heifers that have been immunized to Bang's disease command a big premium when offered for sale.

HARVEST HELP

If farmers could have given advanced notice of the farm help needed it would have been much easier to have met their needs. Of the 60 eastern harvesters ordered 10 days ago, only 25 have come to date. I could place 25 men today, but none are available.

NEWCASTLE DISEASE

Newcastle disease has been a very serious blow to the Poultry Industry in B.C. Last year, B.C. sold Alberta one and one-half million hatching eggs. Next year these are to be shut out.

Alberta is taking every precaution to keep this disease out. Poultry men should listen to the broadcasts over local radio stations for more information.

DISTRICT NEWS

MOUNTAIN VIEW

Mrs. Adam Morasch and grandson Jerry, and Harry Morasch visited at Linden on Sunday with Mr. and Mrs. Frank Berg.

The regular Women's Institute meeting is being cancelled this month due to harvesting, but the next regular meeting will be held in October, so watch for further notice.

Mr. and Mrs. Stewart Tighe, Gale and Jerry Morasch, and Mrs. Adam Morasch were Sunday dinner guests with Mr. and Mrs. Frank Baerg and family.

Gale Morasch is spending a few days visiting with her aunt, Mrs. Stewart Tighe, and brother Jerry is staying with his grandparents. Mr. and Mrs. Adam Morasch, while their parents are on holiday.

Mr. and Mrs. Walter Pratt and family were supper guests with Mr. and Mrs. Emil Miller and family on Sunday.

Mr. and Mrs. Gilbert Huggard and family of Calgary visited for a short time Sunday afternoon with Mr. and Mrs. Grenville McCaig and family, and they drove around the district.

Mr. and Mrs. Fred Hunter visited Thursday afternoon with Mr. and Mrs. Wm. Bruce.

Mr. and Mrs. John Brander of White Rock, B.C., were Sunday dinner guests with Mr. and Mrs. Wm. Bruce.

Mr. Glen Fulkerth was a Sunday dinner guest with Mr. and Mrs. Alfred Morasch.

Mr. George Morasch, Mrs. Alfred Morasch and baby daughter were supper guests Thursday with Mr. and Mrs. W.P. Shultz.

Mr. John Waszot was a dinner guest on Monday with Mr. and Mrs. Alfred Morasch.

Sunday night callers at the Alfred Morasch home were Mr. and Mrs. Stewart Tighe.

Gordon Stiles and Margaret Atkinson, who are attending the Red Deer Composite High School, visited over the weekend at their respective homes in the district.

DISTRICT YOUNG PEOPLES RALLY

A district young peoples' rally will be held in the Evangelical U.B. Church in Didsbury on September 23 and 24. The opening service will be on Saturday evening at 8:00 o'clock, when the speaker will be Rev. S. R. Sherman of Warner, Alberta.

On Sunday morning September 24, Sunday School will be held at 9:30 instead of 11:30. The worship and communion service will be at 10:30 a.m. with Rev. T. E. Jesse, conference superintendent, as speaker.

Dinner will be served in the church parlors by the Ladies' Aid.

The afternoon service will begin at 2:00 p.m., and the speakers will be Young People from Vulcan, Calgary, Didsbury and Three Hills. The theme for this service is "The Calls of Christ," and will be dealt with under the headings: (a) Come to Me, (b) Follow Me, (c) Learn of Me, (d) Abide in Me.

The evening service will begin at 7:30 o'clock with a lively song service. The speaker will be Rev. F. W. Snyder of Calgary and all services will be interspersed with vocal and musical selections.

A great rally is anticipated and Zion Evangelical Church extends to all a cordial invitation to attend.

WESTERDALE NEWS

Mr. and Mrs. Andrew Cowie of Edmonton were Sunday visitors at the home of Mr. and Mrs. J. Cowie. Mrs. E. Evans of Calgary visited last week at the home of her son-in-law and daughter, Mr. and Mrs. W. Wigley.

Patsy Buckley and Phyllis Jackson returned to their respective homes for the week end.

Mr. and Mrs. W. Wigley attended the air show held in Calgary on Saturday. Mrs. E. Evans of Calgary accompanied them on their trip to the city.

Mrs. J. Bothas Sr. of Innis Lake suffered a stroke late Saturday night and is now a patient in the Oids hospital. The people of this district join in wishing her a speedy recovery.

Miss Shirley Herbert of Oids visited last Wednesday afternoon with her parents, Mr. and Mrs. W. Herbert.

Due to the extremely busy harvesting season only eight members attended the Willing Workers meeting held at the home of Mrs. W. Herbert last Wednesday afternoon. Boil cattle and Mrs. A. Buckley acted as secretary in the absence of Mrs. R. Jackson.

It was suggested that a quilt be made in the near future, to have it in readiness for the fall sale.

Mrs. J. Cowie and Mrs. A. Buckley were instructed to purchase material for applique work on a quilt top.

The hostess prize was won by Mrs. J. P. Schrader.

The October meeting will be held at the home of Mrs. R. Jackson.

Mr. and Mrs. J. P. Schrader are making extensive changes to the interior of their home.

Waterside baseball team was successful in winning the Western League cup, having defeated Hillcrest Sunday afternoon in the final game played at Oids. The score of this game was 14-11.

Snicklefritz . . .

Looking for faults, like charity, should begin at home.

Mr. Brown died very suddenly and an important business letter was left unmailed. Before sending it off his secretary, who had a passion for explanatory detail, added the following postscript below Mr. Brown's signature: "Since writing the above I have died."

A man with a lot of money may be a bad egg, but folks seldom take offence until he is broke.

A university conducted a survey among its graduates some months ago in an effort to show that those people who made the best grades in school later made the best salaries, reports "American Business." Chagrined university officials decided not to circulate the results—exactly opposite of what they expected.

"Eph did yo'all know dat Jonah done spent three days in the stomach of a whale?"

"Humph! Dat ain't much. Mah uncle was longer in the stomach of an alligator."

"Sho nuff! How long?"

"He derr yit."

Perhaps one reason that the dollar will not do as much for anyone as it used to do, is the fact that no one will do as much for the dollar as he used to do.

We hear there's no such thing as kissing a girl unexpectedly. The nearest you can come is to kiss her sooner than she thought you would.

Motorist: "I had the right of way when this man ran into me, yet you say I was to blame."

Cop: "You certainly were."

"Why?"

"Because his father's the mayor, his brother's the chief of police, and I'm engaged to his sister."

**LITTLE ITEMS OF
LOCAL INTEREST**

Mr. and Mrs. Bill Jenkins and
boys of Edmonton visited over the
week end in Didsbury with the for-
mer's mother, Mrs. E. Jenkins, and
with other relatives in town and
district.

Rev. E. B. Fox attended an inter-
synodical meeting of all the Luth-
eran churches in Alberta, which
was held at Red Deer on Monday.

Bob Elton has been busy the past
week putting in the recent block
basement for his residence at the
back of the jewellery store.

Bundy Cathness has had the
new car out on some of the
dirt streets this past week and
he has made a good job with the
machine. Some of the streets were
watered the first of the week to
keep the dust down, and this work
is commendable.

Mrs. Jim Hughes returned to
Calgary by plane on Saturday after
spending a month in Penitence,
B.C., where she was visiting with
her sister.

The Ladies' Sports Club will
meet Thursday evening at the
home of Mrs. Bill Moon.

Miss Phyllis Fox left Sunday for
Red Deer where she will attend the
Canadian Nazarene College.

Mrs. P. E. Neufeld returned Sat-
urday after spending six weeks
at Kingston, Ontario, with her
mother and family, who she had
not seen for 22 years. Mrs. Neufeld
travelled by bus and reports a
lovely trip.

Howard Foat harvested his po-
tato crop at the rear of the Variety
Store on Monday and dug six
sacks of spuds from the small plot.

Mr. and Mrs. Hughie Roberts and
for spent Sunday afternoon at
the Sanatorium in Calgary and
visited with their daughter, Mrs.
Carr, who expects to be home in
a short time.

Mr. and Mrs. G. W. Rust of Van-
couver spent the weekend at
the latter's parents, Mr. and Mrs.
H.W. Gabel, and they visited Sun-
day afternoon at the Irwin Klein
farm. Mr. and Mrs. Rex Rust and
children came up from Calgary on
Sunday and they all returned to
Calgary in the evening.

—K. Roy McLean, Optometrist of
Calgary, will make his next visit
to Didsbury at the Eschard Hotel,
on Monday, Sept. 25, morning only.
Consult in city office, 1014 Grey-
hound Bldg., daily except Monday.

Rev. Robert H. Dalke of the West
Indies Mission will be the guest
speaker for the English service to
be held at the Berghal church on
September 21th at 8 p.m. A cordial
invitation is extended to all by the
Young Peoples' Society.

—Pried To Move—Used Minne-
apolis-Moline 28 Thresher. Look it
over at Payco-Freeman Co. Ltd.,
phone 14, Didsbury.

Mr. and Mrs. A. J. McLeod and
Mrs. Stewart Hay of Carbon visited
in Didsbury Monday with Mr. and
Mrs. Ray Campbell and family.

Mr. and Mrs. Bill Novacek Jr.,
who have been visiting at the Rad-
ford home, returned to Redwater
on Sunday.

Mr. and Mrs. E. Weber were
Sunday visitors at the B. Radford
home.

Stan Gale left last week for Van-
couver where he will join Doug
Durand and Jack Cooper on a mo-
tor trip to Mexico, returning
through the central States back to
Calgary.

W. A. Austin, president of the
Alberta Division of the Canadian
Red Cross Society, visited High
River last Saturday and was suc-
cessful in obtaining the full co-op-
eration of Charlie Clarke, editor
of the High River Times, in plan-
ning a publicity campaign for the
crippled children's hospital in Cal-
gary through the weekly news-
papers in Alberta.

Mr. and Mrs. Bishop left Monday
for their home in Penitence, B.C.,
after visiting in Didsbury with the
latter's mother, Mrs. Murphy, and
with other relatives in the district.
Tom Scott returned to Penitence
with the Bishop family.

Mrs. Henry Erb has been visiting
with friends in Didsbury.

Mr. and Mrs. George Rakuson
who have been visiting at the home
of Mrs. Rakuson's parents, Mr. and
Mrs. Fred Thomasson of Bergen,
left on Thursday for Mexico where
Mr. Rakuson intends taking a
year's course at the San Minquill
School of Fine Arts.

Guests at the home of Mr. and
Mrs. Bert Prevost over the weekend
were Mr. and Mrs. Art Jones and
Mr. and Mrs. Joe Kent, all of Cal-
gary.

Knox United Church Evening
Group of the W.A. will meet on
Monday, Sept. 25, at 8 p.m., at the
home of Mrs. Ed Klinek.

—There will be a chicken dinner
at Knox United Church on Friday,
October 6, starting at 5:30 p.m. 3c

Mrs. Pearson returned Monday to
her home at Bashaw after spend-
ing the past week with Mr. and
Mrs. H. D. Halliday.

Mr. and Mrs. Earl Brinton of
Calgary were Didsbury visitors
Tuesday and Wednesday of this
week.

Fine weather still prevails and
harvesting is proceeding rapidly.

Dr. and Mrs. C. T. McNeel
spent the first part of the week in
Edmonton where the Doctor at-
tended a dental convention.

—Commencing October 2, week-day
shows at the Didsbury Opera
Theatre will start at 8:00 p.m.

Miss Doreen Korschuh of Cal-
gary spent the weekend with her
parents, Mr. and Mrs. Adam Kon-
schuh.

CORRECTION

Last week's issue of the Pioneer
stated that trout season closed on
September 15. This was an error.
The season for lake trout closed
on September 15, but the season
for trout and Rocky Mountain
White Fish in the Red Deer and
Clearwater Rivers and tributaries
does not close until September 30.

HIGHER CAR BATTERIES

Car batteries are in for an early
price rise, likely around 10%. Re-
cently a leading U.S. battery man-
ufacturer upped prices 11%, other U.
S. battery manufacturers are follow-
ing. The same cost factors pushing
prices up—sharp increases in lead,
antimony, rubber and transporta-
tion—are affecting the Canadian
picture, battery makers say.
